

**Highway Superintendent Report: 11/21/2023: Richard Meilleur**

We have been busy cutting brush by hand and with the Boom Mower.

We have also cleaned ditches at several locations.

The new Plow Truck is completed and will be getting delivered next week. I talked with Allegiance today and they are retorquing and doing final check over this week.

We have touched up most of our dirt roads with the grader and they are in pretty good shape.

I am still waiting on quotes for the Heaters.

Upstate Doors is getting me a quote on new door seals for the truck bays. They should be able to install them within the next couple of weeks.

I would like to thank the men for another safe and productive month.
