

Highway Report
2/18/2025

We have spent just about all our time maintaining winter roads. Kept trucks and plows going. We went through more salt and fuel. There is a salt shortage, but we have a little left and we can still get some if needed.

I have been questioned as to why we have been plowing the ballfield. We do this for the Life Flight helicopter.

Paving projects, hopefully March we will have CHIPS numbers.

Our equipment is in pretty good shape. We will be spending the next couple of days pushing back snowbanks.
