

## **Highway Report**

**4/15/2025**

We have had a busy month. We've cut, split and stacked about 35 cords of firewood from roadside trees that we had to take down. That is about ½ of our firewood for next winter. We have also been sweeping roads and cleaning up brush and downed limbs on all roads.

We have started screening sand for next winter as we went through more sand than normal. We also went through more salt. Our snow removal budget still looks okay for fall if fuel price stays where it is now.

We have been servicing trucks and equipment to get ready for summer. All trucks and equipment are in pretty good shape right now with only a few minor issues that we will fix this month.

We have also touched up some of the dirt roads that are dry enough and will be working on them for the next 2-3 weeks depending on the weather. We are going to sweep the village starting next week.

This is a list of our paving projects for the year. The State budget has not passed yet so I am using last year's for reference.

Thank you,

Richard Meilleur
